FASCOR

CORPORATE OVERVIEW

Serving our clients with trusted supply chain software solutions

ENABLING OUR CLIENTS

FASCOR's WMS (Warehouse Management System) is a fully integrated warehouse management solution that enables our customers to:

- Accelerate productivity
- Access Information in Real-Time
- Gain Control of Warehousing Functions
- Integrate Warehouse Operations with ERP Systems
- Slash Errors
- Automate Inventory & Order Processing
- Deliver the Right Product on Time, the First Time
- Integrate all aspects of their warehouse distribution operations

PROUD SERVING OUR CLIENTS FOR 35 YEARS

At FASCOR we believe that an automated, integrated, and synchronized supply chain should be within reach of every warehouse, distribution center and manufacturer. Our solutions enable our clients to improve inventory and fulfillment accuracy, reduce shipping and operating costs, gain control of warehousing and distribution systems, and access supply chain data in real time. We're committed to providing robust, yet scalable Warehouse and Transportation Management solutions delivering Tier 1 capabilities at cost that translate to real ROI.

WAREHOUSE MANAGEMENT SYSTEM

- Receiving & Directed Putaway
- Outbound order management and picking
- Inventory adjustments & Cycle Counting
